

Clerk's Report July

- The DEFRA bird flu signs have finally been collected. Thank you to all who helped us get here, Lynda for chasing up who to contact and Chris and Robena for collecting the signs to the shed and setting them out for collection
- I was copied into an email thread to Highways – Norfolk County Council regarding signs in Southburgh..... I have responded that I would bring it to the Council and will forward to relevant parties but the letter was already sent to Highways and Breckland. Perhaps we can raise this issue with our Norfolk County Councillor.
- We have received the email from Norfolk County Council announcing Parish Partnership bid for 2026-2027. If Cranworth wish to take advantage of this in the next financial year, we need to start brainstorming now what type of project we wish to do so it can be included in next year's budget. The deadline to submit a project is December 1, 2025.
- Finally, I can confirm that all end of year paperwork has been posted to the website and the Certificate of Exemption and Contact details have been sent to PKF Littlejohn and they have confirmed receipt.
